CALEB DEVEAU

Ocala, FL 34473 | (843) 468-5029 | contact@calebdev.dev | https://calebdev.dev

SUMMARY

Game developer with a B.S. in Game Development from Full Sail University. Built character controls, enemy AI, and multiplayer systems across solo and team projects. Brings four years of professional IT and technical support experience.

TECHNICAL SKILLS

Programming: C++, C#, Verse, Lua, Java, Python
Engines & Tools: Unreal Engine 5, Unity, UEFN, Godot, Roblox Studio, Git, Perforce, Visual Studio, Photoshop, Premiere Pro
Gameplay Systems: Multiplayer networking (FishNet, Steamworks), client-server physics, object-oriented design
Game AI: Pathfinding and search (A*, BFS, UCS), behavior trees, minimax

PROJECTS

Soul Reaper — Unity, C#

Full Sail University capstone, Github

- Built the character and camera controllers and implemented a custom state machine for player behavior.
- Built the main and pause menu interfaces and wired up their controls.
- Collaborated with teammates using GitHub for version control.

Core Breachers — Unreal Engine 5, C++

Full Sail University capstone, Perforce

- Ported Blueprint projectile, character, and weapon logic to C++ with collision, timers, and hit and overlap events.
- Programmed enemy navigation and targeting so enemies attack walls or towers blocking their route to the core.

The Drop: Mine & Extract — UEFN, Verse

Solo Fortnite island, released

- Built the mining and extraction loop, letting players bank ore and spend their earnings on upgrades.
- Created custom items in Verse and added original item art.
- Connected UEFN devices and Verse event handlers to trigger UI updates and audio cues.

PROFESSIONAL EXPERIENCE

Technical Support Representative — Insight Global

Contracted to Walmart | Remote | May 2024 - Oct 2024

- Supported field technicians troubleshooting HVAC, refrigeration, and electrical systems across retail sites.
- Diagnosed rack health failures, lighting control faults, and communication loss.

Hardware / Software Support — Arctic Inc.

Florence, SC | Jan 2024 - May 2024

- Managed an email ticketing system averaging 80–150 new tickets per day alongside phone support.
- Replaced faulted hardware and handled customer inquiries across Amazon and eBay storefronts.

IT Specialist — SCDHEC

Florence, SC | Feb 2022 - Dec 2023

- Supported computers, printers, and equipment for staff across roughly one-third of South Carolina.
- Performed systems administration, OS troubleshooting, and full workstation rebuilds.
- Traveled 3–4 days weekly to resolve on-site hardware and software issues.

Manager / Phone Technician — Smartphone Doctor

Florence, SC | Jun 2021 - Jan 2022

- Managed inventory, scheduling, and payroll while repairing phones, laptops, and tablets.

Technical Support Representative — Continuum

Contracted to Verizon | Remote | May 2020 - Jan 2021

- Troubleshot calls, mobile data, and Wi-Fi for Verizon customers, maintaining 95% customer satisfaction.

EDUCATION

Full Sail University — B.S. in Game Development

Winter Park, FL | Jan 2024 - Sep 2026
